District Governor Of Rotary Visits

The work of more than 10,200 Rotary Clubs in 113 countries of the world as a factor in the promotion of international understanding and good will was brought to the attention of Pahokee Rotarians by Austin E. Hertzog of Bal Harbour, governor of District 699 of Rotary International, in his address to the club during the Thursday luncheon meeting last week.

In addition to the activities of the individual clubs, Rotary International has expended more than three million dollars during the past 12 years in its student fellowships program, which enables outstanding college students to study for one year in countries other than their own during which they serve as Rotary ambassadors of good will. Since 1947, when the fellowship program was started, a total of 1,202 Rotary Foundation Fellowships have been awarded to students in 67 different countries for study in 44 other countries, five of which were granted to students in this district, he said.

Local Rotarians were urged by the district governor to attend the district meeting at Hollywood-by-the-Sea Nov. 20-22. At this meeting plans will be discussed for the 51st annual International Convention of Rotary to be held at Miami-Miami Beach in May, 1960, when District 699 will be host to more than 20,000 Rotarians from all over the world.

Prior to the luncheon Governor Hertzog conferred with President C. E. Williams and other club officers and standing committee chairman, concerning community betterment and other club service projects scheduled by local Rotarians for the coming year.

Drive Carefully... School's in

Safe driving is everyone's job, all year long. But now that school's starting again, it's time to be even more careful.

Our youngsters may carry some of that carefree summer back to school with them. They may forget to stop and look carefully before crossing streets and highways, getting off their school buses, chasing after baseballs.

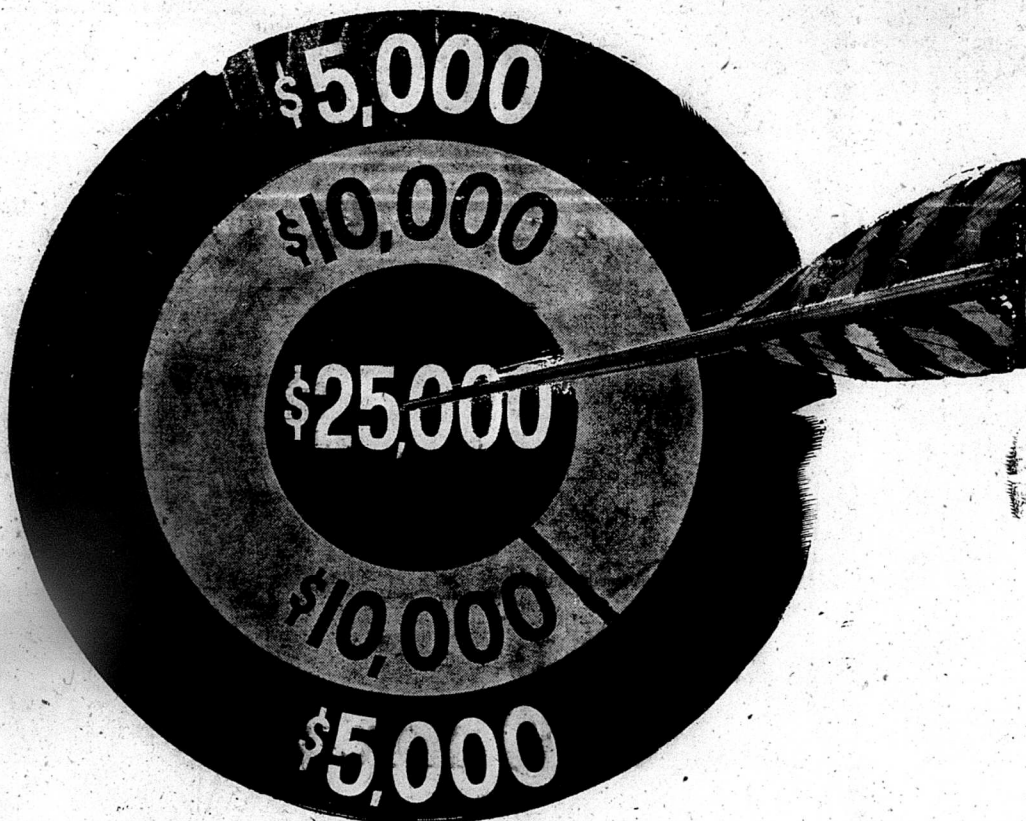

All of Southern Bell's drivers are going to work to make this the safest school year ever. They are going to drive as if their lives—and someone else's—depend on it.

Because they do.

...Growing with the Future

Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2063 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

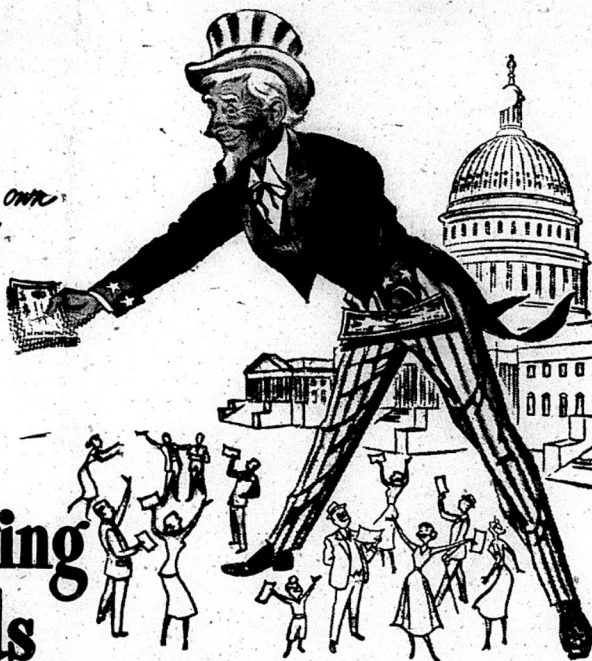

For the big things in your life, be ready with U. S. Savings Bonds

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 ... a \$37.50 Bond will be worth \$67.34 ... and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 ... in 9 years and 8 months, you'll have \$2,850.70 ... and in 10 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

The Ford Falcon, first of America's new-size cars, represents a "breakthrough" in automotive design that may materially alter the future of the automobile industry. The Falcon Ford shown here is more than two feet shorter and three-quarters of a ton lighter than a standard 1959 Ford. Yet, the Falcon is a six-passenger car, with interior roominess approximating that of standard models.

Juvenile Names Will Be Revealed

TALLAHASSEE — Juvenile Court Judge Rufus Jefferson warned parents today he may release names of youthful offenders in particular cases.

Florida law allows a juvenile judge to release names to press and radio if he wants to.

"Though I am primarily against publication of names of juveniles I want to let the public know that this court intends to release names of juveniles when the court believes that this action will have a corrective or therapeutic value," he explained.

Already Jefferson has authorized a release of a weekly summary

W. Harper Kendrick, Palmetto, and a former instructor in Pahokee High School and William J. Cowen, Lake Butler, will receive the NACAA Distinguished Service Award during the organization's annual banquet.

Kendrick is a native of Noma, Florida, and has been with the Extension Service 13 years. He has been county agent in Manatee since 1952. Prior to his present position, he taught vocational agriculture in Pahokee, served as a major in the U. S. Army, and was assistant county agent in Polk.

While in Polk County, Kendrick was responsible for the 4-H Club program. He initiated and organized the Polk County Youth Show that has grown into the largest youth show in Florida.

With a staff of three assistant agents, Kendrick has developed the county agent's office into the center of Manatee County agricultural activities. Under his leadership, county advisor committees have worked to develop a long-range agricultural improvement program for the county.

Cowen, also a veteran of 13 years, has been Union County agent since 1948. A native of Chatahochee, he graduated from the University of Florida and served as assistant agent in Suwannee County for two years.

While in Union County, Cowen has worked toward improving the principal crops grown in the county, particularly corn and tobacco. He has also devoted much attention to raising the quality of hogs

The unlimited availability of divine supply will be brought out at Christian Science services Sunday. Scriptural readings in the Lesson-Sermon entitled "Substance" include the account in II Kings (4) of Elisha's feeding of a hundred men with twenty loaves. Correlative selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include (494:10): "Divine Love always has met and always will meet every human need. It is not well to imagine that Jesus demonstrated the divine power to heal only for a select number or for a limited period of time, since to all mankind and in every hour, divine Love supplies all good." The Golden Text is from James (1:17): "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variable-ness, neither shadow of turning."

Mr. and Mrs. R. W. Sanders had as guests the past week their grandchildren, Andrea and Drew Keyes, of Miami.

Falcon By Ford New Economy Car

Ford Motor Company unveiled its new economy car, the Falcon, said it represented a "revolutionary breakthrough" in automotive design, and compared the significance of its introduction with those of the Model T and Model A.

In an unprecedented 21-city news conference conducted by means of closed-circuit television, Henry Ford II, president, revealed that the Falcon is an all-new, six passenger car with a six-cylinder, 60-horse-power, front-mounted engine capable of 30 miles to the gallon of gas.

Mr. Ford said the Falcon is three-quarters of a ton lighter than the Ford Fairlane, yet has passenger space comparable to standard cars, has a big-car feel, and has excellent structural rigidity and durability. This, he said, represents a significant engineering breakthrough that could "materially alter the future of the automotive industry."

"It was possible to achieve all of this only through the most-extreme design simplification and critically accurate engineering," he asserted. "If we had not succeeded here—if we had not been able to reduce weight . . . without impairing handling and roadability—we would not have been able to build a car of this quality and size to sell in this new price class."

"It's the three-quarters of a ton we've taken out that makes possible the low price to the consumer."

The new car, to be on public display at Ford Division dealerships across the country starting October 8, will weigh 2,366 pounds compared with 3,758 pounds for the average 1959 Ford.

Kenneth McIntosh, son of Mr. and Mrs. H. M. McIntosh plans to leave Saturday with his parents to enroll for his freshman year at Florida State University in Tallahassee. His sister, Miss Annette McIntosh, left Tuesday for her senior year at FSU where she is majoring in interior decorating in the School of Home Economics.

Miss Corinne Collins, daughter of Mr. and Mrs. L. M. Collins, will attend the "Senior Ring Hop" military ball at the U. S. Military Academy, West Point, N. Y., this weekend.

Marcia Jean Guthrie Honored At Shower

The Pahokee Woman's Club building was the scene Wednesday night of last week of a miscellaneous calling shower in compliment to Miss Marcia Jean Guthrie of Pahokee and Miami Shores, bride-elect of Gary Alton Sammons of Tallahassee.

Hostesses were Mrs. George B. Ramey, Mrs. M. H. Baxter, Mrs. George Mills, Mrs. Clarence Maxwell, Mrs. Sam McKinstry, Sr., Mrs. Sadie Barwick, Miss Annette McIntosh and Mrs. Lola Ryals.

The bride's table, covered with white net over pink with white satin bows on the ends and sides, had at one end an upright open parasol covered with pink and white lace and net with bells hanging from satin ribbons circling the outer edge. Beneath the parasol was an arrangement of asters, mums and gerbers from which cascaded the shower of gifts to the other end of the table. Sterling silver candelabra bearing lighted white tapers were on each side of the punch bowl at the center of the serving table. Entwined at their bases was an arrangement of pink and white mums and fern. The scene was reflected by a huge mirror back of the tables. Bouquets of pink gladioli were also used in the decorations which were arranged by Mrs. Barwick, assisted by Miss McIntosh.

Miss Patsy Sammons of Tallahassee, sister of the bridegroom-elect, and Mrs. Mills assisted the honoree with the display of the gifts. Mrs. McKinstry was in charge of the guest book. Soft piano music was played in the background during the evening by Miss McIntosh. Corsages were presented by the hostesses to the bride-elect; her grandmother, Mrs. I. S. Guthrie; mother, Mrs. Marie Thompson; sister, Miss Brenda Thompson, and to Miss Sammons.
